

CONSIGNMENT TICKETS

Larger organizations may take advantage of our NO COST discounted Consignment Ticket Program. This benefit not only provides employees or members with discounts on pre-purchased tickets that are greater than those available to the general public, but it also gives them the flexibility to visit the park on their own on any operating day they choose. Tickets are valid during the current season only. When you participate in our consignment program, you provide a great benefit at no cost to your organization, and your employees or members receive a discount greater than they can get on their own.

- Tickets are pre-purchased by your associates, so they do not need to buy admission tickets when they arrive at the park.
- You must purchase a minimum of 50 Waterpark or Attraction tickets
- No money up front is required. Pay at the end of the season.
- Unused tickets above the 50 minimum may be returned for credit towards your final invoice.
- Use tickets as an employee or member benefit, use as incentives or giveaway to vendors.
- Tickets are not for commercial resale.
